POETRY.

SLACK A LITTLE.

Slack a little! slack a little,
Darling wife;
Why such breathless haste and hurry
All thy life?
Slack the vigor of thy striving,
Ere too late.
Tell those monsters, care and labor,
Just to wait.

Slack a little! slack a little,
Busy hand;
Slack thy rubbing and thy scrubbing,
Drop the sand;
Minister thy blessings slowly,
And the longer;
Bind love's thousand precious tendrils
And the stronger.

Slack a little! slack a little
Weary feet;
'Tis a thorny road you're treading,
Death to greet.
Slack your quick and fearless stepping,
Spare your strength;
Ye the golden streets of Heaven
Shall tread at length.

THE WINE CUP.

BY CARRIE BELL SINCLAIR.

Oh! dash the maddening bowl away!
For poison lurks within;
It glitters but to lure thee on
To paths of vice and sin.
See! see, beneath the shining brim,
The serpent hidden lies;
And yet the goblet holds a spell
That seems to charm thine eyes.

Too often hath the burning lips
The ruby nectar quaffed;
And syren voices lured thee on
To sip the sparkling draught!
Oh! shun it, then!—while yet one trace
Of youth or manhood's there—
While yet thy soul may grasp one thought,
Save those of deep despair!

A gulf of ruin, deep and dark,
Lies just beyond the track!
Oh, pause ere yet it be too late
To turn thy footsteps back.

While yet there is one angel voice
To woo thee to the right,
Or loving hand to hold for thee
A bright and shining light.

Turn from it, then; thy footsteps yet
May shun the way of wrong;
Thy ear be lured by sweeter sounds
Than the false syren's song.
There is not in this broad, bright world
A path, however dear,
But some sweet sunbeam finds its way
And lingers sometimes there.

And bitter thorns, that thickly lurk
The human breast within,
May be removed from those whose feet
Hath walked in ways of sin;
And then, perchance, along life's path
May raise some drooping flower—
And give a hope and courage that
Will cheer the darkest hour.

Oh, erring one,—there yet are lips
That for the fallen pray;
And outstretched hands that lead thy feet
Once more in virtue's way;
And hopes that in thy heart may spring,
To give thee courage strong—
If thou art firm to seek the right,
And ever shun the wrong.
Oh, youth! then let thy footsteps turn
From paths they once have trod;
There's courage from thy fellow-man,
Ask strength, then, of thy God.

How the Wool-Growers Have Sheared Themselves.

Last January we showed by statistics that American wool had always borne a better price when foreign wool was admitted under a low duty, than when a high "protective" duty against foreign wool was enforced. Our object in showing this was to warn the western wool-growers against the folly of insisting upon what would certainly cause them serious loss, namely, a higher duty on wool.

But they were taken with the name of "protection," and persuaded Congress, though it rejected the general Tariff bill, to grant them as a special favor a higher and what they called "protective" duty on foreign wool, as a measure to "protect" them, the home producers.

Now it is a curious fact that ever since this new and higher rate of duty went into operation the price of American wool has declined, and the prospect is now that the greedy and purblind wool-growers of Ohio will not get within several cents per pound as much for their wool as they would have got had they left the duty on imported wool where it stood.

Does any one wonder at this, and ask how it happens? The explanation is easy. The manufacturers of woolens for the most part require several kinds or grades of wool; but the high tariff excluded some of these kinds of wool, and caused some mills to stop; this of course lessened the general demand for wool and lowered the price, so that the American Wool-Growers Association, by demanding and procuring the enactment of a special and high protective tariff, in the first place robbed their own pockets, and in the next seriously deranged an important industry.

But this is not all; let us follow the matter a little further. The wools suddenly excluded from our market by protectionist legislation have been thrown upon the European markets. They have overstocked those markets, and made wools very low in price there; so low in fact have prices fallen, that if they go but a little lower, the very wools which the wool-growers of Ohio intended to keep out by a very high tariff, will come in in spite of that tariff, and undersell American wools, even at their present low prices; and drive the price still lower.

Nor is this all. The woolen manufacturers of England and France are, of course, using this cheap wool, and will presently send over here cheap cloths and stuffs, and undersell our own manufacturers, who have been prevented by the tariff from buying at a profitable price some of the kinds of wool they must have for these goods.

All this loss to American wool-growers and to American wool manufacturers is caused by the absurd protective tariff; and yet so stupid are many men, we suppose there will not be lacking in the next Congress, to demand still higher duties for foreign wools, as a "protection to American industry!" —*N. Y. Evening Post.*

Young Lady Buried Alive—Terrible Case.

The Indianapolis *Journal* of the 9th relates the following:

A friend gives us the account of a most terrible case of burial alive of a handsome young lady at Jacksonville, Illinois. Some time last summer a girl of seventeen years, suffering with the toothache, went to bed with a small phial of chloroform, for the purpose of quieting her teeth. In the morning she was to all appearance dead, which was confirmed by the opinion of several physicians who were called and examined her body. She was then buried. A few days since her relatives were about to remove from Jacksonville, having located in another State, and had the remains of the young lady exhumed, for the purpose of taking them to their new home. Curiosity prompted the opening of the coffin, when they were horror stricken on finding the corpse turned over, both hands full of hair, and her clothing torn to shreds, revealing the horrid truth that the young lady had been buried alive. The chloroform had placed her in a deep trance, the awakening from which was in her coffin and grave. The lady was engaged to be married at the time of her supposed death. A more heart-sickening case we never remember to have read or heard of.

Valley of the Platte.

Long before the valley is reached, it spreads before the eye like a vast bay opening out into an ocean, whither the track appears to lead. It is forty miles from the low, rolling hills on the north, to the opposite and similar range on the south. Between, the surface is almost perfectly flat, though its regular ascent toward the west, of about ten feet to the mile, gives ample drainage. The soil is very rich, and the mind falters in its attempt to estimate the future of such a valley, or its immense capabilities. The grain fields of Europe are mere garden patches beside the green oceans which roll from Colorado to Indiana. The valley widens with the advance. The hills behind sink into the plain until the horizon there is perfect. Those on either side grow fainter, till through the heated air they take on the appearance of low islands seen across many miles of water.

"Much of the land at the mouth of the the valley is under cultivated, and the deep black of the freshly turned loam, the dark green of the wheat, the lighter grass, the deeper shades, and the brown of that which the fires of the autumn spared, make up the wide expanse a mosaic which nature alone could color, and the parties only find room to display. Further on, huge plows, drawn by eight oxen, labored slowly along, each furrow being an added rippled to the tide which is sweeping over all these rich reigons—a tide whose ebb the youngest will never know."

Attorney General Stanbury has had drawn out of him by the Judiciary Committee some information that he was very willing to impart. When the Reconstruction act was first passed, the President called upon the Attorney General for the legal points against the bill, for his veto message. Mr. Stanbury wrote them out, the same in substance as in his recent opinions, but the President and his Democratic friends thought the Stanbury performance quite too mild, and Mr. Buchanan's ex-Attorney General, Jerry S. Black, was called in to prepare a more severe and depraved document. He tried his practiced hand, and produced the "veto message of President Johnson." In testifying to these facts, Mr. Stanbury has relieved himself of the prevailing impression that he wrote that message. But what a discourse this is! The President having consulted his own legal adviser, obtains his opinion and rejects it; appears before the public with declarations directly opposed to it, and then, when the military commanders had acted upon his interpretation of the law, he turns round, accepts the discarded opinion of Mr. Stanbury and overrules them!

Speech by George Peabody.

A correspondent of the Boston *Journal* gives an account of the visit of Geo. Peabody of Andover, Mass., where he attended an exhibition of Phillip's Academy. "The school rose in a body, and with tumultuous cheering greeted him with true school-boy enthusiasm. Mr. Peabody, though having said he should not make a speech, advanced, to the front of the stage and spoke substantially as follows: He did not intend to speak to them, for it had never been his business to make speeches, but their fine speaking and oratory had so impressed him that he could not refrain from address ing them. He had never had the advantages open to them, for he had not been at school since he was ten years old. Many and many a time he would have cheerfully given half his fortune for the sake of education. He told them to respect and obey their teachers, their parents, and above all their conscience and their Maker. He said the same the road to wealth and honor was open to them all as to him. He urged them to never fail to support their parents, and their friends should adverstity overtake them and told them their reward was certain, if not here, in the world to come. Thanking them for their kind greeting he left the stage. As they were leaving the hall the students rose and with tumultuous cheering he left them.

To the Editors of the Evening Post.
Of Course Not.

You ask if Mr. Seward was really guilty of sacrilege in speaking after the President? Of course he was not.

Rev. Mr. Milburn, in his "Sketches of the Southwest," tells of a stump orator, who, expatiating upon a glorious future of the great Republic, depicted in glowing terms the magnificent flight of the American eagle—a bird which will have to do heavy duty next Thursday, by the way.

The speaker said:

"Fellow-citizens, I see that magnificent bird rise on his majestic wings; I see him turning his eyes to the heavens; I seem him a-soaring, and a-soaring, and a-soaring"——

"Dog-gone me if I can see ary bird,' cried a fellow in the crowd, stretching his neck, and pretending to look for the eagle where the speaker was pointing. A general shout of laughter put a momentary check upon the eloquence of the "honorable gentleman," but he recovered himself immediately: — "Fellow-citizens," he shouted, "I was a-speaking' in a figger" when he alluded to the crime of sacrilege. It may be well to remember, when the eagle "flops his wings" rather loudly next Thursday, that "somebody is speakin' in a figger."

How to Prevent Kerosene Accidents.—Never fill the lamp when lighted. Trim always by day, putting in fresh oil every morning and removing the charred portion of the wick. Avoid exposing the lamp to sudden drafts, which blow the flame into the reservoir of the oil and explode it. Carry the lamp about as little as posible, and before doing so, lower the wick. Never burn with the flame too low, for this cause smoke and smell. Never extinguish them by blowing; there is always a gas in the reservoir of the lamp, and the instant the flame descends and comes in contact there with, explosion follows; put them out by covering the wick. If these simple instructions are attened to, explosion is impossible, all bad smell avoided, and a light obtained as brilliant as gas at the cost.

Sensible Women and Sensible Men.

BY MRS. MARIA BUCHANAN.

A worthy matron of sixty summers dressed in the Ammerican Costume, was walking to prayer meeting a few mornings since, when she was accosted by a fine-looking gentleman, a stranger, who said to her, "I am glad to see one sensible woman. I wish there were more such. I like to see a woman so that she can step out of doors." The lady replied, "I conclude you are a sensible man, and I wish there were more like you,"

There is nothing connected with the Union Pacific Railroad that is not wonderful. The possibility of constructing such a road at some future day has long loomed up as one of the events of a grander future which all believed was to come for the land. To look upon so much of it accomplished, to watch the marvelous progress of each day, and feel sure that the great enterprise which we had consigned to the future of our dreams, is to be a reality for us, makes one prouder of the noble days in which we live. In one sense the road is as great an achievement as the war, and as grand a triumph to those who have seen much of the former and looked from this point upon the unfoldings of the latter, they appear equally impressive. What the country has dreamed about for many years is becoming a reality much faster than the people know. One year ago, but forty miles were finished This morniug, we look back from our train over a day's rapid run, and forward sixty miles. To-night, three additional miles of the rail will mark the track of the day's advance.

Keep on the Right Side.

A mechanic who was much addicted to intemperance had a favorite dog, which on one occasion followed him to the tavern. He succeeded, after much coaxing, in getting the dog to swallow some liquor. In a short time the poor creature was completely intoxicated, and, tumbling over and over, played such curious antics that the topers set up roars of laughter, and begged that he might be brought the next night for more "fun."

When the next evening came, the dog was called by his thoughtless master to accompany him to his nightly resort. This the dog quietly did, until they arrived at the door of the tavern, when he stood still, and neither kind words nor blows could induce him to move a step further.

The tavern-keeper brought out some cake, and tried to entice the dog to follow him. But no; he was not to be caught in a rum-trap a *second* time. Cæsar, of course, couldn't speak; but his conduct seemed to say, "I'll keep on the right side of the dram-shop, and that is the outside." It proved one of the best temperance lectures ever given in the village. The master was so impressed that he was never known to enter the tavern again

My young readers, forget not the poor dog, but, like it, keep on the right side of the dram shop—that is the outside.—*Youths' Temperance Banner.*

The following verse has been added to the John Brown song:

"We'll bail Jeff. Davis with a hundred thousand dollar bond,
With the names of Gerrit Smith and Horace Greely thereupon,
And we'll feast the gallant traitor when the cruel war is done,
As we go marching on."

Hic, Hec, Hoc.—When the Rev. Dr. Patton was in England, he dined with several gentlemen who used a great variety of arguments to make him give up his cold water principles. "Now here," said one—"here, doctor, is some good old hock, surely you can't decline this?" "Can't?" replied the doctor; "why, sir, I learned to decline it when a boy: hic, hæc, hoc." The table was in a roar, and the doctor came off triumphant.—Let all boys when they are young decline hoc; if they do, they will never know the drunkard's hic.—*Temperance Advocate.*

Wedding Invitations.—The latest style of wedding invitations are described as follows; Instead of a single or pair of wedding cards, as formerly, the envelope now contains one card with the names of the mother and father of the bride, and one with those of the parents of the bridegroom; then the Mr. and rs. Card; then the maiden card of the bride, and the card of the bridegroom; then the invitation on embossed newspaper for the church, and finally the card invitation to the receptions.

Obscenity in the Ruins of Pompeii.

Correspondence of the Chicago Tribune.

There is one matter in relation to Pompeii that is seldom touched on by writers, and which I dare not touch too closely, to-wit: The horrible depravity of the Pompeians, as illustrated by the frescoes, mosaics, sculptures and bronze statues that are found Hundreds of these vile objects have been carried away to the mueseum in Naples, put in a room which no woman is allowed to visit, but there are still houses in Pompeii that are kept locked, and others that have such sculptures over he doors on the outside that the guides hurry past when there is women in the party. Even in private houses there are scores of frescoes—magnificently executed, too—which one would dare to visit only in company with his nearest and dearest freinds, if ladies, and in other houses pictures and statues than which none can immagiue anything worse. I can not understand why the writers on the matters have been so anxious to conceal the faults of the ancients, It is a fact that deserves to be generally known. Great God! what a picture of corruption imperial Rome is revealed to one who looks into Pompeii with anything like thoroughness. The very stones of the door-post tells a tale more damnable than ever was invented by modern thought. Sodom was clean ahd Gomorrah was pure, compared with Pompeii. Where was ever a people on earth, before or since Pompeii, that "advertised the ways that lead down to hell" by sculptrues placed in the open light of the streets? "Out, damnaed' civilization and Christianity, as it looked in upon Pompeii, and Vesuvius responded to the command and sent his consuming fires to do the work.

Helmbold's Extract Buchu and Improved Rose wash cures secret and delicate disorders in all their stages, at little expense, little or no change in diet, no inconvenience and no exposure. It is pleasant in taste and odor, immediate in its action, and free from all injurious properties.

Helmbolds Fluid Extract Buchu is pleasant and taste inpure odor, free from all injurious properties, and immediate in its action.

A NEW "HEALTH REFORMER'S COOK BOOK."
Under the above title, F. Wilson Hurd & Co., of "Our Home," Dansville, N. Y. have just published a work of 70 pages, which contains a large amount of valuable matter. It has been prepared by Mrs. Lucretia E. Jackson, who for nearly twenty years has been associated with her husband, Dr. James C. Jackson in a management of one of the largest and most successful Hygienic Institutions in the country. Mrs. Jackson has made the preparation of food in the most wholesome simple and palatable ways a matter of study and thorough experiment, and the result is before us in the Health Reformer,s Cook Book. Every family, whose object is to eat to live rather than to live to eat, should possess this book; and indeed no housekeeper, whatever may be her method of cookery, could fail to derive useful information from it. Price by mail 30 cents. 165—4w

Shattered constitutions restored by Helmbold's Extract Buchu.

A large and well-selected assortment of Toilet Soaps, at

DR. CROOK'S VEGETABLE EXTRACT!
Is the most Reliable Remedy.
PRICE, $1.25. Sold by all Druggists

POETRY.

Hail to the fair, the poet and the sage—
The young, the old, and those of middle age,
And list a theme where muses never tire,
And in each breast a loyal zeal inspire.
Let one and all neglect their good no more,
But buy their Drugs at Dr. Cox's Store:
As pure as ether in the Summer sky,
His medicine and drugs you need but try!
No compounds vile, are found upon his shelf,
For Dr. Cox prepares them all himself.
Here, fresh and fragrant as the Summer flowers,
Are perfumes rare, distilled from foreign bowers.
Soft, odorous creams to beautify the skin,
Rich, tempting cordials to imbibe within;
And creamy soaps, so delicate and pure—
To use them will a satin gloss insure.
Rich powders and pomades, unknown before.
Till Cox produced them at his rival store;
And tinctures, extracts, oils and preparations,
The choicest made, from Foreign importations
All these in great variety you'll find,
While prices suit the most fastidious mind.
In teas and coffees, such a stock is rare—
Too choice and tempting to be found elsewhere
While Groceries of every kind are found
Cheaper and better than the town around.
His wines and liquors, choice and very old,
Need but a trial, and their virtue's told;
And fancy goods, of every kind and use,
That man invents, or art can introduce,
Are here in quantities that cannot fail
To satisfy the crowd, and cause their sale.
To those who come attention will be paid,
By Dr. Cox, who thus solicits trade.
And prompt to duty, always will be there
To counsel and advise, and drugs prepare,
With smiling face, dispensing good to all,
And pleased to favor those who early call.

BUY YOUR GROCERIES AT PLATT'S GRAND GROCERY EMPORIUM,

When we affirm that our TEAS and SUGARS, for PURITY, EXCELLENCE and CHEAPNESS cannot be BEAT, we but express the uniform declaration of all who have tried them.

The People will find the Largest Stock at PLATT'S in the city.

Our rule of action is, 1st—To keep on hand everything in our line; 2nd, The best article in the market; 3rd, To benefit our patrons, by selling at the lowest possible Cash Prices, and pay the highest price the market will warrant for Produce; 4th, To work for, and deserve a large trade.

THE AMERICAN COOKING STOVE!
After twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and almost worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner, we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of those purchasing our stoves.

The Ypsilanti Commercial
PUBLISHED WEEKLY, BY
C. H. PATTISON.

SATURDAY, JULY 20, 1867.

OFFICIAL PAPER OF THE CITY.

PROHIBITION—SUBMISSION.

We are in favor of a prohibitory law. We believe in shuttting up dramshops. We are in favor of this course because we believe rum a dreadful, unmitigated curse. Intoxicating drinks unman, unsex, and destroy their victims soul and body, for time and eternity. We believe prohibition too sacred a question to be mingled up with the ordinary political questions of the day. It soars into the grand region of morals. It is a strictly moral issue. The new Constitution, ennobled with manhood suffrage, will be carried by a strict party vote. There are many temperance Democrats, who will feel constrained to vote with their party against manhood suffrage, and thus against prohibition, who not only will vote for, but earnestly labor for, and strive to fix it in the Constitution as an independent question. The Republican party is not divided upon the suffrage question. There is not a Republican newspaper in the State that does not contend zealously for manhood suffrage. There is not a Republican leader in the State—not a man of any influence whatever in the party—but will work and vote for the enfranchisement of the few colored men in our midst. They will do it as an act of justice. A large number of these blacks fought for the preservation of this Government. A respectable number of them are patrons of the Press, and a large majority are inspired with a manly ambition to deserve the ballot. To deny them is a piece of cruelty worthy the barbarians of the dark ages. To imperil their just cause would be an act of madness, and betray a lack of wisdom disgraceful to the great Republican party of Michigan. To do as the Democracy wish, please the *Free Press*, and place manhood suffrage and prohibition both in the Constitution, will as surely insure its defeat as that the morrow's sun will rise. The Republican Press is divided on prohibition. The party is divided. The Democratic party is very nearly a unit on the suffrage question, but divided on the temperance question. Wisdom, then, the highest policy, and good faith demands, aye requires and compels the Republican members of the Constitutional Convention to plant manhood suffrage, fairly and squarely as a political question, into the body of the Constitution, and carry it among the people by a strict party vote. We earnestly appeal to the Republican members to make as few changes as possible in the new Constitution, only what the stern nature of the case requires. A Constitution is demanded framed with great simplicity and brevity, and thoroughly acceptable to the people'—Don't engraft a code of laws upon the Constitution. Submit in a separate article prohibition *versus* license, and let the moral forces of the State, independent of political parties, have a square, stand-up fight, and God defend the right. He will. Those prohibitionists in the Convention who favor planting prohibition in the body of the Constitution are simply fools—as much so as if they should voluntarily dash their brains out against a wall. Thus, then, the question stands—manhood suffrage and prohibition in the Constitution, and we array against it all the license republicans and all the anti-suffrage temperance Democrats. *It will be defeated.* Give us manhood suffrage alone in the Constitution, and we carry it overwhelmingly. And then, give us prohibition in a separate article, and we have all the temperance Republicans and temperance Democrats—the moral forces of the State—and shall triumph. One policy insures the defeat of both, and endangers the unity of the Republican party—the preservation of which is vital to the welfare of the nation. A policy well pleasing to Jeff. Davis and our Democratic opponents. The other insures the success of both, preserves the unity of the party, and leaves us intact for the great campaign of 1868.

"Be ye as wise as serpents, and harmless as doves."

THE FREE PRESS

Is trembling in every limb and sweating from every pore, from the fear that the Constitutional Convention will incorporate manhood suffrage into the new Constitution, instead of submitting it in a separate article.—The *Free Press* is not so blind as not to know that if placed in the Constitution as it ought to be that it will be carried by a strict party vote. But, if submitted separately, there will be a chance to divide the party, and this is the very thing the *Free Press* is after. The Republican who cravenly and cowardly votes to emasculate the new Constitution, by submitting in a separate article this grand, righteous principle of equal and exact justice to all men in our State betrays the party. For on this question the party is a unit. The Republican Press is united in its support.

CURRENT EVENTS.

The Supplementary Reconstruction bill has passed both houses of Congress, and awaits the inevitable veto. Of course, it will pass by two-thirds vote, and Johnson will sink into his normal insignificance. Provision is made to meet Nov. 13. Judging from Gen. Grant's letters to Sheridan and Sickles, he is sound to the core on the great question of reconstruction. We know glorious Sheridan is all right.—All the Generals are proving true, but Ord, and he is a toady sycophant.—The President sent into the Senate a shameful message, hinting at the assumption, by the Federal Government, of the entire debt of the Rebel States. Senator Chandler, in a characteristic and able speech, says the correspondent of the *N. Y. Tribune*:

"Chandler made a speech in his usual emphatic style, in which he more than justified the execution of the Archduke, and divided those who took a different view of the subject into three classes, purling humanitarians under Greely, flunkeys under Raymond, and rebels and traitors under North and South."

COUNCIL PROCEEDINGS.

MONDAY EVENING, July 15, 1867.

Mayor in the chair. Quorum present.

Minutes read and approved.

PETITIONS.

From A. Seymour and others, for plank sidewalk on Congress and Prospect streets.

Referred to Committee on Streets and Sidewalks.

Ordered paid.

From C. Knapp, 3rd Ward, for 7 cords paving stone, at $8 per cord, $56 00.

Ordered paid.

From Wm. C. Tenny, city, $1 00.

Referred to Auditor.

MOTIONS AND RESOLUTIONS.

On motion of Ald. Woodruff, the resolution of Ald. Batchelder, relative to the fence on Emmit street, laid on table at last meeting, was taken up and a motion to adopt the resolution was lost.

By Ald. Dwight,

Resolved, That the Mayor be instructed to draw his warrant on the 3rd Ward street Fund for $400 00, to be paid the 1st of February next, at a rate of interest not to exceed 10 per cent., the money to be used for street work in the ward.

Adopted.

By the same,

Resolved, That the city Marshal be instructed to notify the Trustees of the Baptist Church, in the 3rd Ward, to build within 90 days a new sidewalk on the west side of their property, and that the walk be placed on the established grade on both the west and north side.

Adopted.

By the same,

Resolved, That the city Marshal be instructed to notify the Trustees of Union Seminary to buile a sidewalk on the south side of their property in the Third Ward, and that it be put upon the established grade, also that they repair the walk on the east side, and that it be so sloped at the corner of Cross street as to meet the walk on Cross street, and that the work be done within 90 days.

Adopted.

By Ald. Heartt,

Resolved, That the city Marshal be and is hereby instructed to exempt the main entrance to the Follett House and the front of the McRoberts House from the effect of the previous instructions of this Council, with reference to building hitching posts on Cross street.

Adopted.

By Ald. Noble,

Resolved, That the Common Council appoint a suitable person to act as Clerk at all auction sales, said clerk to keep a correct account of sales, and return the amount to City Treasurer.

From N. Batcheldrr and others, for for the suppression of sale of spirituous liquors on the first day of the week, and also after eleven (11) o'clock on the nights of all other days in the week.

Referred to Committee on Ordinances, with instructions to ascertain what alterations—if any—are necessary to the present ordinance, to meet the request of the petitioners, and report at next meeting of the Council.

On motion of Ald. Stuck, Alderman Dwight was appointed to act as Chairman to the Committee on Ordinances, during Ald. Stuck's absence.

From Chas. Fleming and others, relative to removal of obstructions from Emmit street.

Laid on table.

From Henderson & Glover and others, for an amendment to ordinance No. 12, defining the duties of auctioneers, so as to read "Ten per cent.," instead of "Two per cent" in both sections 2 and 3.

Referred to Committee on Ordinances.

From P. Davis and others, requesting that the Mayor be instructed to draw his warrant on the Fifth Ward Street Fund for the sum of six hundred dollars ($600.00, payable on the 1st day of February, 1868, with interest at ten (10) per cent.

Referred to Committee on Streets at Large.

REPORTS OF OFFICERS.

From Auditor, approved claim of T Vivian for repairing Fire Engine, $24 50.

Ordered paid.

REPORTS OF COMMITTEES.

Committee on Pounds reported that on examination the pound situated in the First Ward will need but few repairs to be ready for use, and recommended that the Marshal make the necessary repairs, keeping an account of the same to present to the city for payment when done; and further recommended that the ordinance be changed in regard to liberating animals from the pound—that the price be one dollar instead of four shillings.

Report accepted, and recommendation relative to repairs on pound adopted. Relative to the changing of an ordinance, referred to Committee on Ordinances.

Committee on Gas Lights read a a notice from the Gas Light Company, that it is their intention to discontinue to light the public lamps in the streets of Ypsilanti, on the 1st day of November next, and to then terminate the contract between the company and the city for lighting the same, bearing date Nov. 1st, 1861.

Referred to Committee on Gas Lights.

CLAIMS PRESENTED.

From Ypsilanti Woolen Manf. Co., lumber for crossing for—

1st Ward,	$15 42	Ordered paid.
2nd Ward,	3 28	
4th Wasd,	5 36	
5th Ward,	26 24	

City lumber for Public Square and Forest street Bridge, $160 58.

Referred to Auditor.

3rd Ward, $21 40.

Laid on table until next meeting.

From Heartt & Bro., for nails, per Marshal or Deputy:

1st Ward,	$0 90	Ordered paid.
2nd "	2 07	
3rd "	11 10	
5th "	2 25	

City, $32 82.

Referred to Auditor.

From Wm. C. Tenney, City, $67 75.

Referred to Auditor.

2nd Ward, $5 50.

Ordered paid.

3rd Ward, for work on Cross, Hamilton and Brower streets, $856 92, and 1½ cord stone, at $8 per cord, $12 00.

On motion of Ald. Woodruff,

Referred to Committee on Ordinances.

Ald. Heartt moved to allow the Michigan Central R. R. Co. to build a sewer diagonally across Cross and River streets.

On motion, adjourned.

S. C. NOBLE, Clerk.

A Few

Copies of last week's issue left for those desiring.

In our next issue a report of the M. E. Sabbath services.

Michigan State Normal School.

The next term will commence Tuesday, Sept. 24th, 1867. Examination of candidates for admission, Monday, Sept. 23rd. For further information, address John Goodison, *S*ecretary of the Faculty, Ypsilanti, *Mich.*

Contest.

The Ann Arbor Base Ball Club and our Peninsular Club had an exciting game in our city last Tuesday afternoon. *It* was so close that victory hung in doubt for a long time, but the Ann Arbor Club finally came off victor by four runs.

Powerful Engine.

Cornwell & Co. have just put into their paper mill a 75 to 80 horse-power engine.—It cost a $100 to get it from the depot to the mill, a little over half-a-mile. It had the look of a monster leviathan crawling thro' our streets.

Edwards & *C*ooper are putting in a beautiful new engine of 25 horse power in their new sash and blind factory.

The Arcade.

Mr. Geo. Moorman has done the Ypsilanti public a great favor by building the Arcade on *H*uron street. This building is 80 feet square; three stories high in the rear; two in front. *T*here are several first-class rooms on the ground floor. Second floor there is a Clothing Store, occupied by H. *W*orms, the Great Wardrobe—a cheap Clothing Establishment. Next Dr. *Cox*, a first-class Drug, Grocery and Fancy Store. John Boyce, Boot and Shoe *S*tore. And the *A*merican Express — four capacious stores. A broad, wide stairway in the center reaching to the third floor. *T*here are 15 rooms, for offices—airy and nice. In southwest corner Judge Ninde has a very pleasant office. Next, north, *C*utcheon & Allen have cozy rooms, stairway intervening. Dr. Kinney is happily provided for. The north tier of rooms are not completed. Justice Brinkerhoof has a splendid suit of rooms on east side. *H*atch & Lowell, the enterprising, wide-awake, sign, board and scenic painters, have an office on the south side. The rooms on this floor are designed exclusively for professional men. The Arcade, lighted by a splendid skylight, is 38 ft. square. The whole building, inside and out, is got up in plain, but neat and inviting style. It is quite an acquisition to our city, indicative of its steady growth.

STILL ONWARD.—Notwithstanding the hard times and high prices, the sale of the Best Chemical Saleratus is still on the increase.—People wi l use it, and every successful housewife tells her neighbor, and when her neighbor tries it she tells another, and thus its fame spreads until it is hard to tell where it will stop.

Good News.

Passengers by the Great Western Railway have a splendid view of the Falls of Niagara and the mammoth Suspension Bridge, while crossing Niagara River in the cars. *For through tickets,* apply at the American Express Office, *Y*psilanti.

Drs. Batwell and Leech.

We see by the Detroit papers that the former has made a serious attempt upon the life of the latter. Jealousy is said to be the cause of the attempt. Dr. Batwell calling on Father Hennessy in Detroit, who was entertaining friends. Dr. Leech called, and learning the fact, departed. Dr. Batwell becoming aware that it was Leech, followed him; passing him a few feet, turned round and fired, using a revolver, accompanying the shot with the exclamation "die." The ball penetrated the coat and vest, in the region of the heart. The vest being lined with cotton batting saved Dr. Leech's life—not even a wound being inflicted. The intended victim turned round and fled back to Father *H*ennessey's, followed by Batwell, who was denied admission. Dr. Leech, some few months since, moved from this city to Detroit. Dr. Batwell is a resident of this city. He is in the hands of the authorities. Shooting should be the last resort uninspired by Madame Rumor, only after ocular proof of invasion of the martial vows.

THE UNION PACIFIC RAILROAD.

376 MILES OPEN FOR TRAVEL—TO JULESBURG.

The telegraph has announced the completion of this road to Julesburg, 376 miles from Omaha, and the materials are nearly all on the ground to lay the track to the base of the Rocky Mountains—141 miles further—by September next. This is certainly rapid work, but intelligent correspondents say it is well done, and that the road is well equipped: that its depots and stations are of brick and stone, and its locomotives and cars of the best. The U. S. Comissioners are also compelled to testify that it is in all respects a firstclass road before the Government will accept it. The business of this road is already surprising. The thousands of teams that once spent a summer in toiling over the prairies have transferred their loads to the railtrack, and by autumn the locomotive will be at the base of the Rocky Moutains. The Editor of *Harper's Weekly* remarks that when the Union Pacific is completed, all other lines of railway will become, to a certain extent, its feeders. Along its entire route over the great Plains lateral branches will be constructed, which will pour into the way-side contribute to an extent that can not to-day be approximately estimated.

"Already, with less than one-third of its length complete, it is earning several times its operating expenses, as officially stated. Such success is without precedent. When it reaches the already populous gold regions of Montano, Idaho, and Nevada, the frieght to and from those points alone is likely to be almost fabulous. And population follows the road as it extends. A town or village marks each stage of its progress. Who can calculate the quantity of way freight that the road is destined to carry for these rising communites? Who, indeed, can estimate the passenger traffic alone? When hundreds of thousands of persons, with their faces toward the West, have tramped ove the Plains at the risk of their scalps, how many preadventure will ride, when they can make the journey with safety in a few days? But a short time will elapse before demands of trade will call for a second track, to be used exclusively as a freight road, over which an endless line of slowly-moving cars shall continuously pass leaving the other track for the use of impatient passengers only."

Our readers will perceive by reference to the Company's advertisement, that it offers its First Mortgage Bonds, paying six per cent. interest in gold to subscribers, at ninety cents on the dollar. These bonds are a *first lien* upon the road, and are limited in amount to $16,000, to a mile.

The Company state their net earnings for the month of May while only 206 miles of road were in operation, at $261,782—a sum which, after deducting operating expenses, is several times the interest on the bonds they are by law permitted to issue upon it. If the earnings are so large upon the way business, what may we not reasonably except when the connection is made in 1870 with the Pacific Coast? We can see no reason why the First Mortgage Bonds of such a road are not a safe security, and they are 15 per cent. cheaper than Government bonds at the market rate. Subscriptions are already large, and are received by banks and bankers generally throughout the country.

The Greatest Pain-Reliever in the World.

Warranted superior to any other, or no pay, for the cure of Chronic Rheumatism, Toothache, Headach, Sore Throat, Mumps, Burns, Cuts, Insect Stings, Pains in the Back, Chest, and Limbs, Sprains, Old Sores, and swellings; also, to take internally for Diarrhœa, Dysentery, Colic, Spasms, Sea Sickness, Vomiting and Croup. It is perfectly innocent to take internally, if used according to the directions, and never fails, as thousands can attest. It was first introduced in 1847, and now millions of bottles are annually sold. Every one who has once used it, continues to do so, and recommend it to their friends as the most valuable medicine extant. Certificates enough to fill a dozen newspapers have been received by Dr. Tobias. His medicine, the Venetian Liniment, will do all that is stated, and more.—No one will regret trying it. Those residing at a distance from a physician, will find it a reliable medicine to have on hand in case of accidents. Ask for Dr. Tobias' Venetian Liniment, and take no other. Price, 50 cents and $1. Sold by all Druggists. Depot, 56 Cortlandt street, N. Y. 177-4 w

BE PREPARED.—How often are people, both adults and children, attacked at the dead hour of the night with cholera morbus, cramps, colic, vomiting and purging; a doctor cannot be obtained till morning; the case grows worse; perhaps death has already claimed its victim;—a few doses of Coe's Dyspepsia Cure would have relieved the cramps and pains, and soon completely cured the sufferer of his troubles. Mothers, have it ready for your children! Fathers, provide it for your household!

A NUISANCE.—In nearly every paper we take up we see some glowing heading as, "General Grant in Town," or, "Another Veto from President Johnson," and, to end off with an advertisement of some Patent Medicine. In justice to our readers we would say, Don't read any of those sort of captions, and you won't know that J. W. Poland's Humor Doctor is the greatest cure in the world for Scrofula and all the Diseases of the Blood, and is put up in large bottles, and for sale by all Druggists, at $1.

SEE WHAT CHEMISTS SAY.—W. H. DeCamp, chemist, says: "I have analyzed a sample of four different brands of Saleratus, and I find the Soda Saleratus, manufactored by Henry S. Smith, far superior to anything I have seen. It is perfectly pure and healthful, and very fine and white, and is equal, if not superior, to the best English Soda."

This Saleratus has been sold for the past six years, and given entire satisfaction to more than 800,000 families throughout the whole west. It is undoubtedly the best article ever sold.

Shattered constitutions restored by Helmbold's Extract Buchu.

"To be or not to be—that is the question,"
Whether to suffer with mental anguish,
Feverish lips, cracking pains, dyspeptic agonies,
And nameless bodily suffering;
Or whether, with sudden dash,
Seize a bottle of PLANTATION BITTERS,
And, as Gunther swears, be myself a man again.
Gunther said my eyes were sallow,
My visage haggard, my breath tremendous bad—
My disposition troublesome—in fact,
He gently hinted I was fast becoming
Quite a nuisance.
Four bottles now beneath my vest have disappeared,
My food has relish — my appetite is keen,
My step elastic, my mind brilliant, and
Nine pounds, avoirdupois, is added to my weight.

MAGNOLIA WATER.—A delightful toilet article—superior to Cologne, and at half the price. 177-2w

NINE YEARS IN A HOSIERY FACTORY.

For nine years past I have been connected—in the capacity of overseer of the knitting and stitching departments—with hosiery manufacturing; and I am free to state that, of the different kinds of Sewing Machines, I found none so well adapted for general use in making up hosiery goods as the Willcox & Gibbs. 50 per cent. more work can be done on it than upon any other machine in a given time; while the cost for repairs is at least five times less.—(Letter of J. P. Delahunty, Overseer at Adams' Hosiery Mills, Cohoes, N. Y., Dec 13, 1865.

A CARD

FROM THE AMERICAN WATCH COMPANY OF WALTHAM, MASS.

THIS Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one half of the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand and the result is of necessity a lack of that uniformity which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact hat, except watches of the higher grades, European watches are the product of the cheapest labor of Switzeland and the result is the worthless Anores, Lepines and so called Patent Levers—which soon cost more in attempted repairs, than their original price. Common workmen, boys and women buy the rough separate parts of these watches from various factories polish and put them together and take them to the nearest watch mearchant, who stamps and engraves them with any name or brand that may be ordered,

HOW AMERICAN WATCHES ARE MADE.

The Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the Watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their several parts are all made by the finest, the most perfect and pelicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding parts with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to re produce every part of that watch, and it follows that every succeeding watch must be like it.

The Company respectfully submit their watches on their merits only. They claim to make.

A BETTER ARTICLE FOR THE MONEY

by their improved machanical process than can be made under the the old-fashioned handicraft system. They manufacture watches of every grade, from good, low priced, and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies watches in plain gold or the finest enameled and jeweled cases: but the indispensable requiste of all watches is that they shall be good Timekeepers. It should be remembered that except their singie lowest grade named "Home Watch Company, Boston," all watchas made by them are fully warranted by a special certificate, and this warrantee is good at all times against the Company or its agents.

ROBB NS & APPLETON,
177-4 w 182 Broadway, New York.

In The Coral Caves,

Sea Green is said to be the prevailing color, and the fish-tailed Maidens sit on the rocks and comb their green locks assiduously But the belles of earth prefer glossy browns and shining blacks to any other tinges, and if nature has not given their fair heads these beautiful hues, or if mischance has robbed them of their once exquiste beauty, they don't cry about it, but resort at once to cristadoro's hair dye, which in five minutes does all that nature ever did for any head in happiest mood. Manufactured by J. Cristadoro, 68 Maiden Lane, New York. Sold by all Druggists, Applied by all Hair Dressers. 177-1 w

The Grayest Maladies

Of youth and early manhood, Howard Association essays, on the Physiology of the the Passions, and the Errors, abuse and Disease peculiar to the first age of man, with Reports on new methods of treatment employ in this Institution. Sent in sealed letter envelopes, free of charge. Address, Dr. J. SKILLIN HOUGHTON, Howard Association, Philadelphia, Pa

"CAT'S MILK" AND POOR WHISKEY!

"The last remedy for a certain class of invalids, who have eaten all the cod livers in the country, and drank all the poor whiskey they could find, and still live, is cat's milk. French chemists have suddenly discovered that this lacteal fluid possesses strong restorative powers."

The above item has been going the rounds of the press for some weeks past and doubtless "cod livers" among the ignorant, and "poor whiskey" among those who "ought to know better," will be in active demand among consumptive sufferers. After ruining their digestion with the one and destroying their constitution with the other, they propose to resort to "cats milk" as the only hope. Let them take counsil of the many thousands who having been the victims of "cod livers," poor whiskey and cat's milk, have found not only temporal but permanent relief in DR. J. Poland's White Pine Compound, and they will once more feel a renewal of their youthful vigor. Sold by all duggists.

MASON & HAMLIN CABINET ORGANS.—It is very seldom that any business furnishes so good an example of true enterprise as the manufacture of the above celebrated instrument, conducted by Messrs. Mason & Hamlin, of Boston, Mass. It seems but as yesterday that the mention of a reed instrument suggested naught but snarling fine-tooth-comb music, and yet such a vast improvement has been made that the quality of tone is now hardly regonizable as coming, from a reed. If our musical readers will personally examine it, they will agree with us, that the Cabinet Organ will fully bear out all that is said of it.—*Louisville Journal.*

Wool came in freely last Saturday, and the first the week. Sparingly now on account of a decline of 3 to 4 cts. The telegraph reports the failure of four coommission merchants in N. Y. city, hence the decline. 35 to 42½ is the highest figured offerd to day the 19th.

HOUSE AND LOT FOR SALE

Situated on Mill street, Ypsilanti, third house from the corner of River street, south side, containing six rooms. For particulars apply on the premises.

176 THOMAS GLASS

CONSUMPTION CURABLE BY DR. SCHENCK'S MEDICINES.

TO CURE CONSUMPTION, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. SCHENCK'S MANDRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is nutricious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhœa they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food—at meat, game, and, in fact, anything the appetite craves: but be particular and masticate well. [and w. ca. mo 1 yr

Manhood and youthful vigor are regained Helmbold's Extract Buchu.

Ypsilanti, June 29th, 1867. 176

THE UNION

PACIFIC RAIL ROAD COMPANY,

Are now constructing a Railroad from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT,

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,

AT

Ninety Cents on the Dollar,

This road is already completed to Julesburgh, 376 miles west of Omaha, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion ta the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done in September of this year, and it is expected that the entire road will be in running order from Omaha to its western connections with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its six per cent. Thirty year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,060,000, making the total resources, exclusive of the capital, $118,416,000: but the full value of the lands cannot now be realized.

The authorized capitel stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment,

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended;—on 330 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

NINE PER CENT.,

and it is believed that on the completion of the road, like the Government Bonds they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by the

Continental National Bank, No. 7 Nassau St, Clark, Dodge & Co., Bankers, 52 Wall St., John J. Cisco & Son, Bankers, No. 33 Wall St.,

And by Banks and Bankers generally throughout the United States, of whom maps and descriptive pamphlets may be obtained. They will also be sent by mail from the Company's Office, No. 20 Nassau Street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the bonds.

JOHN J. CISCO,
Treasurer,
172-3m New York.

Hembold's Fluid Extract Buchu

Is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility,
And all diseases of the Urinary Organs,

104 South 10 Street, Philadelphia, Pa.
Sold by all Druggists.

MEDICAL, &C.

AN INVALUABLE MEDICINE
FOR THE PURIFYING OF THE BLOOD.

DR. J. W. POLAND'S

HUMOR DOCTOR,

A Positive Remedy for all kinds of Humors,
PARTICULARLY
Erysipelas, Nettle-Rash, Salt Rheum, Scrofula, Carbuncles, Boils, and Piles.

It is very easy to say of this, or of any other medicine, "It is the very best remedy known." It is not always so easy to prove it. It is, however, exceedingly gratifying to the Proprietor of this medicine, that, while he delares to the public that this is a most wonderful and effective specific for Humors, as stated above, he has abundant proof at hand to sustain his statement.

For sixteen years the HUMOR DOCTOR has been manufactured and sold, and every year has increased the value of its reputation, and the amount of its sales. In New Hampshire, where it originated, no remedy for Humors is so highly prized. An eminent physician (now an army surgeon) when practising in New Hampshire, purchased between fifty and sixty gallons of it, during some seven or eight years, and used it in his practice. He has since then ordered it for the hospital where he was stationed. Other physicians have purchased it, and have used it in practice with great success. When the Proprietor lived in New Hampshire, at Goffstown Centre, for the space of thirty or forty miles around, and in Manchester particularly, the HUMOR DOCTOR was well known and highly valued for the numerous and wonderful cures which it effected. Though manufactured in large quantities the supply was frequently exhausted, and purchasers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with it—and they were cured! Erysipelas sores, or carbuncles, those ugly, painful ulcers, were entirely removed wherever this medicine was faithfully used. So it was with Scrofula and Salt Rheum. The HUMOR DOCTOR cured them.

For the sake of showing what is thought of it, a few testimonials are here inserted:

Milton Gale, Esq., Boston.

I hereby certify that I was sorely afflicted with Boils for two years, developing themselves upon my limbs and other parts of my body. The sufferings which I endured from them are indescribable. Suffice it to say that I faithfully tried several of the most popular humor remedies, but without removing the affliction. At length, by the earnest request of an intimate friend, I was induced to try Dr. J. W. Poland's Humor Doctor, and am very happy to attest that all my Boils were removed, and my health was restored by using Dr. Poland's aforesaid medicine.

BOSTON, Jan. 14, 1856. *MILTON GALE.*

Mrs. Wheeler, Stoneham, Mass.

I very confidently and earnestly recommend Dr. J. W. Poland's Humor Doctor as an excellent remedy for Humors, having been wonderfully benefited by it myself. My own case was a very severe and obstinate one. For more than two years the skin upon the inside of both my hands, each even down on the wrist, was constantly cracked and broken up, so that I was unable to use my hands in any kind of wet work, and was obliged to wear gloves in sewing to avoid getting blood upon my work. The humor which so afflicted me was probably a combination of Erysipelas and Salt Rheum. My general health was quite poor. Soon after I began to use the Humor Doctor I could perceive signs of healing. I continued to take the medicine till I was finally cured. My hands are now perfectly free from humors, and to all appearences my whole system is clear of it, and has been for several months. I used eight bottles before I felt safe to give it up entirely, but they cured me. HARRIET WHEELER.

STONEHAM, Mass., July 5, 1855.

Mrs. Porter, Dover, N. H.

DOVER, N. H., July 22, 1855.

DR. POLAND: I received your letter inquiring as to the effects of your medicine on sea-sickness. I am happy to say that I think it is a "the medicine" for that dreadful sickness. I tried various prescriptions, but found none that settled the stomach and cleared the head like the Humor Doctor. I felt as though I could hardly wait to get ashore, to entreat you to introduce it into ship chandlery stores, that it may find its way to those who suffer upon the mighty deep from sea-sickness. If captains who take their families with them, or carry passengers, should try it for once, they would never be willing to voyage without it.

Yours, HARRIET M. PORTER.

Much more might be stated in relation to this medicine, as contained in testimonials, but it is needless. Ask Manchester druggists about it, especially E. W. Blake, at Barr's. Inquire of Mr. Henry Plumer, of Bedford, whose wife was cured by it of Salt Rheum. Ask almost any person in Goffstown, and they will declare its value as a remedy, as used in their own cases or by their friends.

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years trial by the public; and no preparation for the hair yet discovered will produce the same beneficial results. It is a new scientific discovery, combining the most powerful and restorative agents in the VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and* falling out of the hair; *and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a* HAIR DRESSING. *It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and in order to induce the trade and the public to purchase their compounds, they have resorted to falsehoods, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them! Purchase the original: it has never been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.

TO CONSUMPTIVES.

The advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered for several years with a severe lung affection, and that dread disease Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for consumption, asthma, bronchitis, coughs, colds, and all throat and lung affections. The only object of the advertiser in sending the prescription is to benefit the afflicted, and spread information which he considers to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, free, by return mail, will please address Rev. Edward A. Wilson, Williamsburv, Kings Co., New York. 168-1y

The Central Drug Store will be open on the Sabbath, from 9 to 10 in the morning, and from 3 to 5 in the afternoon, for dispensing medicines. FROST & WHEDON.

SPECIAL NOTICES.

Dr. Strickland's MEDICATED COUGH BALSAM.

This valuable preparation is compounded from the many pectoral herbs of the forest, and contains no poisonous ingredients. The most obstinate cases of Coughs, Colds, Hoarseness, Asthma, Bronchitis, Whooping Cough, Croup, Influenza, Catarrh, and all diseases of the Throat, Lungs and Chest are immediately relieved by its use. Of course, no one remedy will cure every case, but we have yet to learn of the first instance where this Balsam has failed to give relief when a fair trial was given. Prepared by an educated physician, who has had over twenty years practice in England and this country, and who, during that time, has had the best possible opportunities of testing the virtues of the different remedies used in all parts of the United States, and knows exactly what is required to cure each case which the nature of the disease will admit of. The best proof of this is the fact that the sales of it are increasing to an unprecedented extent, and persons who have used it once will use no other. Price, 50 cents per bottle or $5 per dozen. For sale by all Druggists.

ONE DOSE RELIEVES, ONE BOTTLE CURES

A Remedy FOR THE PILES.

DR. STRICKLAND'S PILE Remedy is a sure cure for the Piles, without doubt, the only preparation known to the public which will cure them. The Doctor has been afflicted with the Piles for many years, and has tried almost every remedy that could be obtained, at great expense, but never found relief until he discovered the remedy of which he now makes use. He has cured many of his neighbors and friends, and will send a box of the Pile Remedy to any one who is afflicted with the Piles, on receipt of $1. Any one who is suffering from Piles, or Blind and Bleeding Piles, should not delay, but send for a box of the Remedy at once. Directions for using accompany each box. Address, DR. W. M. S. HOPKINS, Sole Proprietor, Strickland's Pile Remedy, Box 1,000, Detroit, Mich. Sold by Druggists generally. Price $1 a box. Liberal discount to Druggists and Peddlers. For sale by all Druggists.

THE MISER-RABBI-MADE-HAPPY

Both cured with one bottle. Another is that of Mr. Becker, of Kalamazoo. Much suffering for many years, and was cured by this Remedy. These are but a few of many. Any one who is suffering from Piles, should not delay a day, but get a bottle of Dr. Strickland's Pile Remedy at once. Price $1.25 a bottle. Liberal discount to Druggists and Peddlers. For sale by all Druggists. Directions for using accompany each box. Address, DR. W. M. S. HOPKINS, Sole Proprietor, Detroit, Mich. Sold by Druggists generally. Price $1 a box. Liberal discount to Druggists and Peddlers. For sale by all Druggists.
